

**11-C** wears a halo-but its horns get in the way. The captain of our ship is Glenn Perrott. Judy Bell is his first mate and Debbie Bedley makes a grand fog horn. When not aboard ship, on duty, many of the crew play hockey, volleyball, basketball or cheer for our teams. We'll do all right, nobody has sunk us yet.

**11-B** This year the Chem Lab caught an incurable disease. Mr. Clarke did his best to control its spread, but was unable to eradicate it completely. Fluff and Wendy Moore were on Council to make sure that we got a fair shake, but most of us were too busy following or participating in sports to worry. Dave Woodill kept us moving, but the biggest thrill was the weekly suspense-full wait to see if Annette Craig would show us for History class.
