"curiouser and curiouser"
 a thriving United Nations...
 interclass soccer champs...
 ...our spies have infiltrated
 every activity. "Are you
 people ready yet?" "NO!"
 ...united we stagger, di-
 vided we fall...all work
 and no play is not our prob-
 lem...10-B, the erstwhile
 greatest, has graduated...
 11-A, The Greatest, is a-
 live - and how - in Room 16.

11-B is second only to 11-A as the most lobotomized class - deep down we are docile. Easily manipulated by the teachers, our collective ego has the substance and firmness of slush. We do make some noise while the operation is being performed, like mice in the lab. Mrs. Gillis makes life easier by reminding us that when she was in school, she even had to do the floors.
